

# GUNBOAT HAS BEEN ORDERED TO HONDURAS

Will Protect American Interests if Necessary  
—Officials Have Been Watching Revolutionary Movements in Several Central American Countries for Some Time.

WASHINGTON, Aug. 25.—(By The Associated Press.)—Announcement today that the Gunboat Sacramento had been ordered to La Ceiba, Honduras, ready to protect American interests if necessary, revealed that officials here have been watching with growing concern revolutionary movements in several Central American countries.

While the situation in each republic is local, political unrest in Guatemala as well as Honduras is known to be viewed here as serious, interwoven as it seems to be with the so-called unionist movement in all Central American republics said to have had its origin in Mexico during the presidency of Carranza and which contemplated a federation of all Latin-American republics.

Advices from Central American cities have indicated this unrest for some weeks. No comment was made by officials today. The Sacramento was due at her new station today having sailed from Costa Rican waters.

A strong opposition party has arisen in Honduras since General Gutierrez overthrew the government a year ago and was elected president. Charges were then made that his election had been forced by the army in controlling the polls. An agent of the opposition party was in Washington recently to ascertain the attitude of the United States. He said it would be impossible to avert for many months a revolution against Gutierrez.

The situation in Guatemala was said today to be almost as serious, according to official advices.

The church party is accused of using the Unionist movement as a shield while the liberals are openly favorable to it. In Honduras, President Gutierrez is charged with opposing the movement altho the country is described as a stronghold of unionist sentiment. In Nicaragua, where election trouble is reported, the government is said to be hostile to the Unionist movement which has strong popular support.

Salvador and Costa Rica are adherents of the movement.

## RADICALISM MENACE TO COUNTRY, SAYS CAVE

Englishman Makes Plea for International Tribunal of Justice—Geddes Denies Congressman Britton's Charges.

St. Louis, Mo., Aug. 25.—A plea for international tribunal of justice as a means of securing world order, freedom and peace was made by Viscount Cave, in an address tonight before the convention of the American Bar Association in session here. The Viscount is a lord of appeal of England.

"I hope that I am not too sanguine in believing that the foundations of such a tribunal were well and truly laid on the twenty fourth day of July last at the Hague," he declared.

Warning against radicalism, Viscount Cave declared revolutionary trouble in England seemed near at hand, but predicted England would pull thru.

Sir Auckland Geddes, British ambassador to the United States, who in an address at the day session pictured the bolsheviks as enemies of democracy, departed tonight for Toronto. The ambassador prefaced his address with a denial of charges of Congressman Britton of Illinois, that Great Britain has appropriated \$87,000 to be used in this country for "entertainment purposes" to further the Democratic presidential campaign.

## SENDS TELEGRAM TO PRESIDENT WILSON

LONDON, Aug. 25.—Arthur Griffin, "acting president of the Irish Republic," has sent the following cablegram to President Wilson and the heads of all the governments:

"I inform you that the Lord Mayor of Cork and duly elected deputy for the county of Cork, Ireland, was recently seized by the armed forces of England, arraigned before English military officers and forcibly deported from this country in an English war vessel, and he is now in imminent danger of death at Brixton prison, London. I recall to your excellency the declaration made by the heads of the allied and neutral states when the burghmaster of Brussels was treated with a lesser indignity and harshness."

## CHICAGO PAPER TO ADVANCE PRICE

# DESTRUCTION OF BOLSHIEVİK ARMIES SEEMS COMPLETE

Only 30,000 Fugitives Remain of Red Hosts

WINTER IS RUSSIA'S TRUSTY ALLY

PARIS, Aug. 25.—(By The Associated Press.)—The destruction of the Bolsheviki armies now may be considered complete according to advices here. Of the host which swept down on Warsaw nothing is left but 30,000 fugitives. The Poles have taken 80,000 prisoners so far, but what is more important they have captured great quantities of guns and materials.

It is considered probable the soviets employed all their available resources and in the present condition, Russian industries will take a long time to replace them. Consequently if the soviets are able to find effective lack of equipment will hurt them militarily.

Heavy Fighting in Progress  
For the past three days there has been heavy fighting in the valley of the Narew between Ostrolenka and Lomza, where the Reds sought to break thru in the direction of Bialystok.

The losses have been heavy on both sides.

It appears the Bolsheviki are trying to make a stand in the region of Ostrowiec.

Profiting by the regrouping of the Polish army, the Reds again invaded Galicia. General Budenny made a dash for Lemberg, but has been defeated and is in flight.

Another detachment crossed the Dnieper and occupied Stryi. This detachment was driven off by local workmen.

In the region of Chelm, a Bolsheviki attack was repelled.

Poles Capture Bialystok  
Berlin, Aug. 25.—The capture of Bialystok by the Poles means the end of the Russian fourth and fifteenth armies, a Russian brigade commander told the Lokal Anzeiger correspondent at Friedrichshof, east Prussia. The escape of masses of Bolsheviki troops into German territory is expected today and tomorrow. The Red army has been given orders to retreat along the whole front at the rate of sixty versts per day.

According to information here it is believed the Russians will make their next stand at the Niemen line. In editorial consideration of the political effects of the soviet's present dilemma the Allgemeine Zeitung observes:

Winter, Russia's Trusty Ally  
"There is one trusty ally on whom the Bolsheviki may safely count in this hour of need. Despite the plans of her enemies, the white blanket of the Russian winter will in all probability have lulled it to sleep before the plans of the Poles will have developed into an actual menace for Moscow."

In the present situation the newspaper believes Moscow's position for an armistice would mean inevitably the collapse of the soviet state and that therefore it may be taken for granted that "Bolshevism will now strip to the buff for a finish fight."

## MINERS TO MEET COAL OPERATORS

KANSAS CITY, Mo., Aug. 25.—District officials of the United Mine Workers of America, from Kansas, Missouri, Oklahoma and Arkansas met here today and decided to extend an invitation to coal operators of these states to meet them in a conference here next Monday. That announcement was made tonight by officials of the mine workers who said that today's conference did not form a new wage scale, as had been planned. After a discussion it was decided to hold a joint meeting with the operators next week, August Dorchy, vice-president of District 14, United Mine Workers, said.

## GOV. LOWDEN GIVES ADDRESS TO SOLDIERS

SPRINGFIELD, Ill., Aug. 25.—Veterans of the World War, "the bulwark of the nation in peace even more than in war" were said by Governor Frank O. Lowden, the chief speaker of the Soldiers' Day program at the Illinois State Fair.

Soldiers from the farthest counties of Illinois were in abundance. The fair attendance for the day was announced as 65,000.

"The security of our nation rests in the hands of our ex-soldiers," said the governor. "The soldier is the bulwark of the nation. With sedition threatening the government, with talk of revolution and bolshevism all about, we can rest here for our soldier boys will keep the nation safe in time of peace as they did in time of war. They have never failed us."

## BODY OF GIRL FOUND IN SECLUDED SPOT

Grantwood, N. J., Aug. 25.—The body of a girl—less than 20, pretty and expensively clothed—today was found in a secluded spot in the Grantwood woods, bearing evidences of violence.

Clutched in the girl's right hand was a piece of cloth torn from a dark blue coat. From the appearance of the body it was evident that the girl had fought desperately.

# BELIEVE ALLIES ARE MORE CLOSELY UNITED

PARIS, Aug. 25.—(By The Associated Press.)—An optimistic feeling prevailed at the French foreign office today regarding the European situation. The opinion was freely expressed that the situation is clearer and that the allies are more closely united, than at any time since the armistice.

Endorsement of the French policy toward Russia, by the United States last week and by Great Britain and Italy yesterday is felt here to have cleared the atmosphere and the anxiety evident at the foreign office the past two weeks has disappeared. The foreign office favors a meeting of the various premiers as soon as possible. The British foreign office and also the Italian, have been sounded as to whether they would agree to advance the meeting of the supreme council to the first week in September instead of the middle of the month as scheduled. The French contention is that execution of details should be settled without delay. It is understood the first thing to be discussed at the meeting is the drafting of a note to Poland signed by all the premiers, asking Poland to keep her armies within her ethnographical frontiers.

"There is nothing like a military victory to clear up the political atmosphere," and official of the foreign office told The Associated Press today.

The speech last night by Leon Jouhaux, president of the general federation of labor in which he repudiated the bolsheviks, is said to have relieved the international situation. It was taken to indicate that the moderate elements were again ruling the labor federation.

# NO SUBSTITUTE FOR STARS AND STRIPES PLEDGE OF HARDING

Personal Touch by Nominee Brings Hush and Then Cheers

PAYS TRIBUTE TO THEODORE ROOSEVELT

MARION, Ohio, Aug. 25.—At the close of a speech here today on many issues of the campaign Senator Harding turned to two visiting soldiers both blinded in the Argonne, and solemnly made a public pledge that "there never shall be a substitute for the stars and stripes they last beheld."

The personal touch which brought a momentary hush and then was re-echoed in cheers, followed a broader promise to the world that in its efforts for international concord America never would surrender its nationality, and a suggestion that it would be better "to cultivate waiting opportunities in friendly soil of the new world than chase a phantom amid the envious and rivalries of the old."

He also asked for governmental and individual economy as the primary step to reduce the cost of living, declared for a policy of federal maintenance of public highways and appealed to the new women voters not to segregate themselves in a new party based on sex prejudice. The administration he accused of "premeditated neglect in preparing for the war and of tardiness in making provision for a return to peace."

He also paid a tribute to Theodore Roosevelt and declared his conviction that "were he living I would be speaking for him at this moment as your candidate for president."

# FIRST AERIAL MAIL DELIVERED TO ALASKA

Were Forced to Alight on Bars in Some of the Rivers Owing to the Rough Forested Country—Fog, Rain and Snow Handicapped Aviators.

WASHINGTON, Aug. 25.—For lack of other suitable landing places, the army Alaskan airplane expedition was forced to alight on bars in some of the rivers in Alaska, Captain St. Clair Street, commander of the four plane squadrons, reported to the war department today in advising of the completion of the trip from New York.

The rough forested country, he said, made landing there necessary. The aviators also were handicapped in Alaska by fog, rain and snow.

The first aerial mail was delivered in Alaska when the four aviators in passing over Nome, dropped mail packages with streamers.

An outstanding feature of the trip was the fact that the entire journey was made with the original motors which upon completion of the trip, were still running in wonderful condition.

The planes will be given a complete overhauling, the announcement said before the return trip covering the identical air lines charted on the outward voyage, will be started.

# ANTI SUFFRAGE FORCES RECEIVE ANOTHER JOLT

District of Columbia Supreme Court Refuses Order

MAY BE APPEALED TO SUPREME COURT

WASHINGTON, Aug. 25.—Anti-suffrage forces received another setback today when Justice Siddons of the District of Columbia supreme court refused to issue a "show cause" order against Secretary of State Colby, preliminary to the issuance of an injunction to restrain that official from proclaiming the 19th amendment a law.

The order would have required Mr. Colby to show cause why the injunction should be issued. The action was brought by Charles S. Fairchild, an official of American Constitutional League, on behalf of himself and the organization. No further effort will be made to prevent the issuance of the proclamation, Alfred D. Smith attorney for Mr. Fairchild, said.

The official certification of Tennessee's ratification was expected to arrive tonight and Secretary Colby indicated he would issue the proclamation at once. The campaign of the anti-suffrage forces would now be directed at an effort to obtain early action in the United States supreme court as to the validity of the Tennessee ratification. Mr. Smith announced. He said he would ask a formal order of dismissal in order that he might appeal to the District of Columbia court of appeals at once with a request that the case be certified directly to the federal supreme court and set for early trial.

The action of Justice Siddons today paralleled in a measure that of Justice Bailey of the same court last month, except that Justice Bailey granted a "show cause" order against Secretary Colby in a similar bill filed by the same plaintiffs, but after hearing declined to issue the injunction asked on grounds of lack of jurisdiction and insufficient showing.

In dismissing the bill today Justice Siddons said he did not wish to review Justice Bailey's action in a similar case, and that to issue the "show cause" order would be "unwarranted interference with a purely ministerial action of the secretary of state. Mr. Smith said he still hoped to obtain a decision before the November elections.

No Decision Before Election  
If, however, the appeal should be carried to the supreme court it could not be argued until after the regular meeting of the court in October with little likelihood that a decision would be reached before election day Nov. 2. In that event, it was pointed out, women would be legally entitled to vote with the result that should the supreme court later decide against the legality of the Tennessee ratification the validity of the entire national election would be in question.

The anti-suffrage forces also challenge legality of ratification in Missouri, West Virginia and Ohio.

# WOMEN SHOULD JOIN TWO GREAT PARTIES

CHATTANOOGA, Tenn., Aug. 25.—The women of the nation now enfranchised should join with the two great parties, and should not attempt to form a party of their own, Mrs. Carrie Chapman Cat, president of the National American Woman Suffrage association declared today en route from Nashville to New York.

"There is no mortgage on the women's vote," she declared, "but they should ally themselves with the existing political parties. I hope they will remain independent in thought and will determine their choice of parties, platforms and candidates after intelligent reflection."

# TEN INCH RAIN FALL IN CENTRAL KANSAS

TOPEKA, Kans., Aug. 25.—Gypsum in the central part of the state is flooded and many residents are marooned in their homes as the result of a ten inch rain there early today. This is a record for the state. It is said. Hail and wind accompanying the rain which covered most of the northern part of the state, did much damage to crops and buildings near Assaria.

Gypsum Creek is out of its banks and hundreds of heads of hogs have been washed down stream, according to reports. Other streams are rising and farmers predict the heaviest floods in years.

# REQUEST POLAND TO MAKE DECLARATION OF RUSSIAN POLICY

Polish Armies Will Not Wage Aggressive Warfare—Officials Expect Poland Will Withdraw to Line Fixed by Supreme Council—Will Take Up Strategic Position.

WASHINGTON, Aug. 25.—Poland has been formally requested by the United States government to issue to the world a declaration of her intention to abstain from any territorial aggression against Russia.

Formal announcement that a communication embodying such a request had been forwarded was made today by the state department.

That representations of some sort had been made to Poland regarding the continuation of her counter stroke against the soviet forces beyond her natural frontiers was made known by officials early in the week.

At that time, however, officials declined to say whether a formal communication had been dispatched.

# MILITARY AID NECESSARY TO QUELL RIOTING

St. Mathew's Catholic Church Again Scene of Outbreak

SOLDIERS FIND IT HARD TO DISPERSE CROWD

Belfast, Aug. 25.—St. Mathew's Catholic church in Newtownards road, one of the principal storm centers during the rioting in Belfast in July, was again today the scene of a dangerous outbreak. Eye witnesses said disorders began when civilians started firing revolvers. A crowd gathered and soon a retaliatory fire of stones was being directed towards the building and the spot where the firing was heard.

Police soon reached the scene, but the situation became so threatening summons was sent for military aid. A strong detachment of the Somerset infantry arrived and posted guards at all danger points, while the guns of an armed car were trained on Newtownards road. The soldiers were obliged to fire over the heads of the crowd and finally directly upon it before it was dispersed.

Piles of stones and other missiles were found in the side streets.

# SCALE COMMITTEE REACHES AGREEMENT

CHICAGO, Aug. 25.—A sub-scale committee of the full scale committee of eight miners and eight operators reached an agreement tonight favoring an increase in wages of \$1.50 a day, making a scale of \$7.50 for eight hours work to day men in the Illinois mines. The sub-scale committee will report to the scale committee tomorrow morning it was announced.

E. C. Seales, representing the operators, said he believed the scale would be satisfactory to the men and end unrest in the Illinois field. Frank Farrington's only comment was:

"The men have asked for an increase of \$2."

# PROHIBITION CANDIDATE ATTACKS HARDING

CHICAGO, Aug. 25.—Prohibition national headquarters here tonight issued a statement by Aaron S. Watkins, prohibition nominee for president attacking the record of Senator Harding on the wet and dry question.

ABOUT AUTO TIRES.

A prominent garage proprietor was talking about tires yesterday. He said the net wholesale cost of auto tires was practically the same as in 1914, the increased demand having enabled the manufacturers to maintain a rate no higher.

He said also that it must not be supposed that handling auto tires is all profit and fun. A man must carefully watch his stock and not let it accumulate and grow stale on his hands or he may have to sell it at a loss. He said he would make but little from year to year on such goods high as they are.

## VOTE FOR

HUGH GREEN

—FOR—

States Attorney

September Fifteen

Morgan county voters will make a good move in voting for Hugh Green, for the Republican nomination for State's Attorney, at the primary election on Sept. 15, 1920. He is well qualified by education, experience and temperament to handle the office in a capable and satisfactory manner.

HUGH GREEN.

No young man deserves more credit for making his way in the world than Hugh Green. His father died when the boy was three years of age and young Green was compelled to start out early for himself. He began as ploughboy at 25c per day.

By perseverance and hard work he managed to get a high school education, and was graduated at the head of his class. At Illinois College he supported himself by scrubbing floors, washing windows, moving lawns, stoking furnaces, clerking in stores, and in fact doing everything he could get to do during the school year and by doing farm work and traveling with a threshing outfit during vacation. In four years he was graduated with honors and then went to Chicago where he again earned his own way and again was graduated with honors from Northwestern University Law School. Returning to Jacksonville 8 years ago, he entered the practice of law, and was just established when the World War came. He was examined in the draft but found too much underweight to be accepted. He then assisted the Local (Exemption) Board and his work was of a highly satisfactory character. Although he sacrificed his entire business, and was out for 18 months, he received nothing for his services except the pay of a private soldier, which was \$1 per day and board. By change of physical requirements in the army he became eligible to be and was inducted into military service on Sept. 6, 1918, sent to Camp Grant, Illinois, and from there was assigned to the Board. He was discharged at Camp Grant on Feb. 24, 1919.

In June 1919 he was married to Miss Clara Belle Hopper. They have one son, Mrs. Green is a daughter of Mr. Charles Hopper, of Hopper & Son.

BRITISH CREW  
MEMBER PLACED  
UNDER ARRESTSuspected of Being Eugene  
LeRoy Wanted for  
MurderDENIES EVER BEING  
IN DETROIT

RIO JANEIRO, Aug. 25.—(By The Associated Press.)—When the British Steamer Dryden arrived here yesterday from New York one of the crew was placed under arrest at the request of the United States authorities. He is suspected of being Eugene LeRoy, wanted by the police of Detroit, Mich., in connection with the murder of Mrs. Katherine Lou Jackson, who is said to have been his wife and whose mutilated body was found in an unclaimed trunk in New York several weeks ago.

The suspect is confined in a steel cell aboard the vessel and is guarded by four maritime police. He had shipped aboard the Dryden under the name of Morris Fox, ordinary seaman. Today he said:

"I know absolutely nothing about the death of Mrs. Jackson in Detroit. I have never been in that city."

Fox is tall and well built; about thirty years old with regular features, light brown eyes and

dark hair brushed straight back. He speaks good English without noticeable foreign accent. He seemed more concerned at his confinement than over the charges against him. He has not the appearance of a sailor and declared he had shipped on the Dryden solely because he was without money and had many debts.

Read About Case  
"Yes," he continued, "I have read about the Jackson case in the New York papers before sailing but the police are silly to compare me with LeRoy in personal appearance."

As there is no extradition treaty between the United States and Brazil, Fox will be detained on the Dryden until the vessel reaches Buenos Aires, when extradition will be asked. Fox claims his home is in Toronto, where he says his mother resides at 225 Augusta avenue. He said he was a garment worker by trade and was a member of the New York local of the International Ladies' Garment Makers' Union. He was rather indefinite about his actions in New York, but declared he had formerly lived at Hotel Bradford, 65 East Eleventh street, although the last few months had resided at 2853 West 25th street, Coney Island.

The man denied all knowledge of the andon and Hoxie murders with which his name is connected by the police.

Toronto, Aug. 25.—Mrs. Gillie Fox who lives at 225 Augusta avenue, the home address given by Morris Fox, under arrest in Rio Janeiro, admitted tonight she had a son Morris who had lived in New York until recently. Except for the age, she said the description of the man at Rio Janeiro answers that of her son, who, she explained, is only 19 but looks older.

Mrs. Fox said that since her son left home just before last Easter she had received a letter from him every week, all postmarked New York and none from Cleveland or Detroit. About a month ago his correspondence ceased. She said a letter from a roommate of his in New York informed her that Morris had gone to sea to earn some money.

## Service Satisfaction Success

Your success on the farm is due mainly to two things; the raising of your crops at a minimum expense and the disposal of your crops at a profit. Both of these are controlled by your proper choice of the tools which to work your land.

We desire to call your attention to the amount of work that one man can do with ease, in fact, what he can accomplish at what is a pleasure if he has a Toro machine, in from eight to ten hours per day.

Grain Harvest 25 acres  
Plant 20 acres  
Corn Binder 10 acres

Plowing 7 acres  
Disc 20 acres  
Rolling 40 acres  
Drilling 20 acres

The above figures are taken from actual field work done this year. You can be the happy owner of one of these most satisfactory, 100 per cent motor tools for the farm if you will figure with us. The question is, are you looking for greater success? We believe you are. If a tenant you desire to raise more at a less expense so you may in the future be a land owner; if the owner of the farm, you desire to improve your working condition and make more money so you can obtain more land.

Running a chautauqua without street car service is a difficult problem but it is being worked out successfully at Nichols park. The news that the cars were not running caused consternation Wednesday morning to both pedestrians and the management of the enterprise, but there was generous co-operation on the part of car owners, with the result that the attendance was nearly up to normal both afternoon and evening. The program as originally announced for the day was carried out.

Vissouch's Florentine musicians gave afternoon and evening concerts. H. E. Cope delivered a humorous lecture and Mrs. Peter Olesen made the address at the evening session. Today one of the biggest programs of the week will be presented. The Beaumanoir band is to give afternoon

and evening concert programs. The band is one of the finest musical attractions that the whole ten day program presents. "Pussy Foot" Johnson, famous as a prohibition worker in the U. S. and England, will lecture this afternoon and tonight. Miss Margaret J. Penick, impersonator and reader, will be a feature of the program.

The Benefit of Laughter  
Mr. Cope in his address had the interest of his audience at all times. His was a lecture replete with humorous stories and apt sayings, with the result that laughter had a large place on the program. But the purpose of the lecturer to do more than amuse his audience was frequently apparent and the good lessons interspersed with the anecdotes were numerous.

He showed the benefits of laughter in relation to health and in fact, the duty of every person to enjoy a certain amount of mirth. He emphasized the fact that a hearty laugh not only brings physical benefit to the individual but makes a contribution to the sum total of human happiness. He dealt quite largely with the psychology of happiness altho that wasn't the term used. It was a very popular lecture.

Mrs. Olesen used as the theme for her serious and helpful address, "The Re-awakened Social Conscience." Mrs. Olesen is a resident of Minnesota and is one of the most prominent among suffrage workers in the Democratic party. She was a prominent figure at the national Democratic convention in San Francisco and addressed that body. The national committee of her party sought to have her travel with the Franklin Roosevelt party on a speaking campaign thru the west, but chautauqua engagements interfered with this plan.

An Old Time Question  
Mrs. Olesen said that the awakening of the social conscience is really in answer to the old time question: "Am I my brother's keeper?" She said that it was in answer to this question that England entered the war when the German hordes invaded the land of the Belgians. The same thing was true of the U. S. and Mrs. Olesen with an array of argument gave proof that humanitarianism characterizes the age. This same humanitarianism is the evidence of the awakened conscience of the people. While the benefits

which have come from that awakened conscience are many, Mrs. Olesen pointed to many duties which yet remain if the days of ideal democracy are to come, when the rights of all the people get just recognition.

If applause is an indication of appreciation the Florentine musicians were mighty popular with the chautauqua people. The musical programs were unusual in their variety and every one of the group was clever. The vocal soloists drew special ecumens but all were talented.

## Attention— Ford Owners

Have You Seen the F. B. Battery Cover?  
The F. B. Battery Cover is an absolute essential for the protection of the battery. Without it the top of the battery quickly becomes covered with mud and dirt, which becomes acid soaked, not only causing a leakage of the current and soon runs down the battery, but also causes undue corrosion, disintegration of the terminals and the battery box proper which in a short time absolutely ruins the complete battery.

## Skin Eruptions Cause Constant Torture

When your skin disease reaches its worst stage and the fiery burning causes you to scratch and scratch in an effort to obtain relief, there is many a sleepless night in store for you.

It is nothing more than folly to expect to be cured by the use of local treatment such as ointments, salves, lotions, etc. Such remedies may afford some temporary relief, but you want more than relief; you want a remedy that will rid you forever of the torturing disorder.

Eczema, tetter, boils, pimples, ulcers, irritations and scalp eruptions, as well as all other forms of skin diseases come from a disordered skin condition of the blood. They must be cured through the blood, and this explains why local treatment fails so absolutely.

The radical and rational treatment is to take a thorough course of S. S. S., the purely vegetable blood remedy, which thoroughly cleanses the blood of every particle of impurity. A few bottles of S. S. S. will rout out the disease germs from your blood, your complexion will begin to clear up and you will soon be rid of the disease as thousands of others have.

Get a bottle at the drug store today, write to our head physician, who will gladly give you full medical advice without charge. Address Medical Director, 612 Swift Laboratory, Atlanta, Ga.

### DEMPSEY AND MISKE TAKE FAST WORKOUT

Report That Dempsey Had Been Injured Caused Promoters Several Anxious Hours—Miske's Trainer Says He is a Snappier Puncher Than Willard.

Benton Harbor, Aug. 25.—While Jack Dempsey was reported to be in a hospital seriously injured today as a result of a reported automobile accident he actually was in his open air training camp whaling his sparring partners around in preparation for his bout here with Billy Miske, a week from next Monday. The report that Dempsey had been injured caused promoter Floyd Fitzsimmons and Jack Kearns, manager of the titleholder several anxious hours.

Kearns answered a hundred telegrams from all parts of the country denying the rumor that the Labor Day match would have to be called off. Dempsey took a forty minute public workout this afternoon in addition to other training activities. He went three fast rounds with Panama Joe Gans, sending the negro reeling to the ropes half a dozen times with left hooks. He finished the program with three savage rounds with Bill Tate. Jack Reddy, manager of Miske was somewhat upset today by criticism of the challenger's sparring partners. Jack Heinen, Chicago heavy-weight, who is one of Miske's sparring partners, shares Reddy's views concerning the chances Miske will have Labor Day. Heinen helped train Willard for the Dempsey match and said today Miske is a much snappier puncher than Willard.

Miske limited his boxing today to four rounds.

**BURTON FAMILY SPENT  
SIX WEEKS IN TEXAS**  
Mr. and Mrs. L. L. Burton and son have arrived in the city after a trip to Texas. The trip was made by automobile and covered a distance of more than two thousand miles. They followed the Ocean to Ocean highway, the E. T. Jefferson state road and the Ozark trail and spent each night at a hotel instead of camping as so many tourists do.

Mr. Burton stated yesterday that the Kansas roads were the best they met, while those in Oklahoma could properly be classed as the worst. At various places along the route they followed road construction and repair work was in progress.

While in Texas they visited relatives at Houston and Galveston and visited various points of interest. The entire trip was made with the consumption of something more than eighty gallons of gasoline.

**DIVORCE SUIT FILED**  
A suit for divorce was filed in the circuit court yesterday by Thompson & Thompson as attorneys for Henry G. Hullinger of this city, who seeks separation from his wife, Margaret A. Hullinger. They were married on Nov. 15, 1918, and lived together until April, 1919. The wife is charged with unfaithfulness.

Now the filmiest of summer materials are practical

You can wash them with perfect safety

THE sheerest batistes and nainsooks, the finest handkerchief linens, cobwebby voiles and organdies—they can give as good service today as gingham!

It is all a question of how you wash them. Naturally, when you rubbed soap into them, and scrubbed it out again, those delicate fabrics never used to last! The fine things could not stand it. But there is no rubbing with Lux—just the soothing touch of rich foamy Lux suds, the gentle cleansing that possesses fabrics demand.

With Lux your blouses and gowns may be ever so filmy—yet softly cleaned and protected.

Your grocer, druggist or department store has Lux—Lever Brothers Co., Cambridge, Mass.

### How to launder sheer fabrics

Whisk one tablespoonful of Lux to a lather in a gallon of hot water. Let white things soak a few minutes; press suds through—do not rub. Rinse in three hot waters, dry in sun.

For colors make suds in warm water. Wash quickly, do not let three lukewarm washings dry in shade.

Nothing so delicate as Lux for dainty summer frocks

## Daily Market Report

## CEREAL PRICES

## BROKE WEDNESDAY

CHICAGO, Aug. 25. — Cereal prices broke today after an early bulge due to a falling off of buying demand. At the finish wheat was one-half cent lower to three-fourths cent higher with December \$2.34 to 2.33 1/2 and March \$2.80 1/2; corn was off 1/4 to 3/4; oats ranged from 1/4 lower to 1/2 higher, and provisions were unchanged to 12 1/2¢ below yesterday's close.

Houses with seaboard connections bought wheat futures rather freely and there was considerable exchanging of these for cash grain, indicating export sales. News was more bullish than of late receipts having fallen off while commission houses sold freely on the advance and there was a shortage of buying orders. The federal reserve bank statement was construed as bullish, as it said indications were for larger production of all grains, except wheat, than a year ago. The greatest obstacle to the farmer, it continued, is the inadequate transportation facilities.

#### WOODRUFF TELLS ABOUT CANDIDACY

Peoria Mayor Says Personal Wrangle Between Other Candidates for Governor Is Bad for Party — Assails Utility Commission.

Vehement denial that he had entered the race for Republican nomination at the behest of any other candidate was made by Mayor E. N. Woodruff of Peoria last night in an address delivered from the steps of the court house.

Mayor Woodruff is making a state-wide speaking tour. He arrived in Jacksonville last evening having spoken during the afternoon in Barry, Pittsfield and Winchester. He was introduced to his Jacksonville audience by John J. Reeve.

"I am a candidate in good faith," he said, "I resent the insinuation that is being assiduously circulated about that I entered this campaign at the instance of another candidate. As a matter of fact both of my opponents tried to get me to withdraw but there is no office within their gift that is alluring. If I had not been a candidate before when that offer was made I would have become a candidate if I had known that I would not get a thousand votes."

The Peorian bitterly flayed Thompson and Lowden for the vicious personal wrangle in which they have become embroiled. "These men have been the closest political allies until recently," he said. "They have dominated Illinois politics for years. What their quarrel arose over I do not know and I do not care. But as a Republican I do protest against endangering victory for the Republican party."

"The gulf has so widened between these men that if either is nominated there is danger that he will be defeated. Republicans of Illinois must select a non-factional candidate if we wish to escape Democratic rule in this state."

Mayor Woodruff delivered a scathing indictment of the state public utilities commission. "I am opposed to the public utilities commission and favor the abolition of that body," he said. "It is un-American and fundamentally wrong. Its operation has been too plain to need comment as to its effect."

**Opposed Utility Commission.** Woodruff said as president of the Illinois Mayors' association he had in the first place opposed the forming of the commission. "The right of making franchises with public service corporations rests with the people," he said, "and the people should have something to say about the service they give and the rate they charge. These are home problems and should be settled through elected representatives of the people in the city council rather than by a long distance through an appointed commission."

Mayor Woodruff said he favored expending the \$90,000,000 which has accumulated in the state treasury from automobile licenses for the building of permanent roads. "If I am elected governor this will be done and there will be a just and equitable distribution between the counties," he said. "The people will get one dollar in value for every dollar spent."

Woodruff called attention to his record of service in the city of Peoria, where he has served seven terms, fourteen consecutive years. "I am proud of the honor that has been conferred upon me time after time by the people of Peoria," he said. "I have endeavored to faithfully serve the people. I believe I can render service as efficiently as governor of this state."

Lieut. C. W. Dull of Peoria representing the Association of Commerce spoke for a moment or two preceding the Woodruff address. He said: The record of Mr. Woodruff in Peoria is one of which any man could be proud," said Mr. Dull. "The latch string of his office during the time he has been mayor has always been out. Rich and poor always have had a respectable hearing. We tender him to the state with conviction he will make an able governor."

Woodruff and his party left this morning to attend the state fair at Springfield, where the Peoria candidate is to speak this afternoon.

#### OGLESBY VISITOR IN JACKSONVILLE

Lt. Governor of State Talked Informally About Governorship Race—Paragraphs from Recent Address.

John G. Oglesby, lieutenant governor of Illinois, and a candidate for Republican nomination for governor, was a visitor in Jacksonville Wednesday morning. The lieutenant governor and his secretary, Elmer Snyder, drove here from Virginia. Numerous Republicans, both men and women, called at the Dunlap House between 10 and 11 o'clock to meet the visitor.

The lieutenant governor made no address here but recently at a public gathering spoke as follows:

**Right of Free Speech**  
"I join with the authors of the National Republican platform in the demand that every American citizen shall enjoy the ancient and constitutional rights of free speech and free assembly and the no less sacred right of the qualified voter to be represented by his duly chosen representatives."

"No man may advocate resistance to the law and no man may advocate the evident overthrow of the government. It must be kept constantly in mind that no one has the right to advocate a change of government or any of its institutions or laws by force. The ballot box affords a peaceful remedy for a free people. No specious claim of free speech or a free press can be allowed to cover advising a resort to violence to accomplish desired ends."

"I have as little patience with a canting reactionary as I have with a wild radical. I believe that economic justice and social progress can be achieved thru and under the orderly process of law."

**Obligations to Society**  
"It is one of the rights of an American citizen to criticize the acts of his officials. It is one of the rights of citizens of free government to discuss the public acts of their public men, but no one has the right to offer factious opposition to the legally constituted authority."

"I cherish all the rights of an American citizen and I expect to live up to them. Individuals and groups of individuals should recognize that they have no right, moral or otherwise, to seek their own welfare at the expense of society as a whole. Every man has obligations to society and the prime obligation is to consider the rights of others as well as to strive to gain advantages for himself."
